PROFESSIONAL SUMMARY

Junior Software Engineer and Full-Stack Developer who builds and deploys web applications with JavaScript, React, Node.js, Express, MongoDB and REST APIs. Published 20 live web applications, including a full-stack React/Express/MongoDB capstone with 15 passing automated tests, and completed 11 software engineering certifications (74 hours) through the Hofstra University / QuickStart program in four months. Brings an A.A.S. in Electronic Engineering and 25 years of construction project management in planning, budgeting, procurement, subcontractor coordination and team leadership. Based in the Bronx and available for hybrid work.

CORE COMPETENCIES

Full-Stack Web Development | Front-End Development | Back-End Development | RESTful APIs | API Integration | Responsive Web Design | Version Control | Authentication | Automated Testing | Quality Assurance | Agile / Scrum | UX Design Principles | Debugging | Technical Documentation | Construction Technology | Project Management | Budgeting | Procurement | Subcontractor Coordination | Team Leadership

KEY ACHIEVEMENTS

- Published 20 live web applications across GitHub Pages, Vercel, Render and Cloudflare Workers, including sites on custom domains.
- Built Khanu Learning, a full-stack capstone with JWT authentication, MongoDB data models, Google Gemini AI recommendations and 15 passing automated tests.
- Integrated 5+ public APIs (Radio Browser, Gemini, OpenAI, Giphy and a weather API) and the Web Speech API for voice features.
- Completed 11 QuickStart certifications (74 hours) between July and November 2026.
- Managed construction projects for 25 years (2001 to present) while serving 10 years with NYC agencies.

TECHNICAL SKILLS

Languages & Front End: JavaScript (ES6+), HTML5, CSS3, React, Vite, React Router, Motion, DOM Manipulation, Responsive Design

Back End & Data: Node.js, Express, MongoDB, Mongoose, RESTful APIs, JWT Authentication, bcrypt, Async JavaScript (fetch, async/await), JSON

Tools & Deployment: Git, GitHub, VS Code, GitHub Pages, Vercel, Render, Cloudflare Workers, Custom Domains & DNS

AI: Google Gemini API, OpenAI API, Web Speech API (voice), AI chat and voice assistants, Prompt Engineering

Process: Automated Testing, Testing & QA, UI Testing, Debugging, Agile/Scrum, UX Principles, Technical Documentation

PROJECTS

Khanu Learning: AI-Assisted Tutoring & Booking (Capstone) — React, Express, MongoDB, Gemini, Render

- Built a full-stack app connecting a React/Vite front end, an Express REST API and MongoDB/Mongoose models for users, services and bookings.
- Secured accounts with password hashing, JWT authentication and ownership checks on booking and cancellation.
- Ranked tutoring sessions by goal, subject, level and budget, with Google Gemini explaining the top match and a labeled fallback when the AI is unavailable.
- Wrote 15 passing automated tests; deployed on Render with an additional GitHub Pages front end. Live: khanu-learning.onrender.com

New Prime General Construction: Company Website — React, Vite, Motion, Vercel

- Built a motion-driven, responsive site with React Router, service pages, a project portfolio, a six-step process and an estimate request form. Live: newprimeconstruction.com

WorldWave: Live Radio Worldwide — React, REST API, Vercel

- Built a radio browser in vanilla JavaScript, then rebuilt it in React; integrated the Radio Browser API to stream live stations by country.

My Free AI and My AI: Voice and Chat Assistants Gemini, OpenAI, Render, Cloudflare

- Built a zero-cost voice and chat assistant with the Gemini API and the browser's speech APIs, and deployed an OpenAI-powered voice assistant on Render behind Cloudflare (aihelpall.com).

Student Management System JavaScript, GitHub Pages

- Built a student records app with an add-student form, a searchable directory and a course filter.

EXPERIENCE

Junior Software Engineer: Full-Stack Projects July 2026 - Present

Hofstra University / QuickStart Software Engineering Program and Independent Projects

- Design, build and deploy responsive web applications with HTML, CSS, JavaScript and React; 20 projects live.
- Build REST APIs with Node.js and Express on MongoDB, secured with bcrypt, JWT authentication and ownership checks.
- Integrate third-party APIs and AI/voice features (Gemini, OpenAI, Web Speech API) with async/await, retries and fallbacks.
- Deploy with Git/GitHub to Vercel, Render, GitHub Pages and Cloudflare Workers; manage custom domains and DNS.
- Debug front-end and back-end issues, write automated tests and document features and limitations for non-technical readers.

Project Manager June 2001 - Present

New Prime Construction Corporation

- Plan and coordinate construction projects from scope and estimating through execution, closeout and client handoff.
- Build schedules, track milestones, coordinate subcontractors and trades, and resolve field issues before they affect delivery.
- Manage budgets, bids, material procurement and vendor relationships; maintain project documentation and code and safety compliance.
- Designed and built the company's React website (Vite, React Router, Motion), deployed on Vercel at newprimeconstruction.com.

Seasonal Cement Mason 2026

NYC Parks & Recreation

- Place, finish and repair concrete for sidewalks, pavements, foundations and retaining walls to specified grade and contour.
- Estimate job needs, prepare material requisitions and maintain work records; coordinate with crews and supervisors.

Night Supervisor June 2024 - January 2025

Mosholu Montefiore Community Center

- Supervised evening operations, staff coverage, scheduling, building security and incident handoffs.

Maintenance Worker 2019 - 2026

NYC Parks & Recreation

- Performed facility maintenance and repairs; inspected conditions, responded to work orders and maintained service records.

Associate Park Service Worker / City Park Worker 2016 - 2021

NYC Parks & Recreation

- Operated vehicles and field equipment; tracked work orders, timesheets and supplies; guided assigned crew members.

Assistant City Highway Repairer 2017 - 2018

NYC Department of Transportation

- Repaired curbs, sidewalks and roadway pavement; mixed and placed concrete and asphalt; maintained safe work zones.

EDUCATION

Software Engineering Program 2026 - Present

Hofstra University / QuickStart

A.A.S., Electronic Engineering Bronx, NY

Bronx Community College

CERTIFICATIONS

QuickStart (2026, 74 hours): JavaScript; React Foundations; Node.js, Express; REST API Integration; Introduction to Databases; Code Foundations: Software Principles, HTML & CSS; Starting with Git & GitHub; Testing & Quality Assurance; Integrated Software Design & UX Principles; Scrum and Agile Immersion; AI Prompting & Developer Workflow.

OSHA Safety Training. Valid New York State Driver's License.
